To Whom It May Concern:

Response to Finding #2:

This letter is to confirm that Vardaman Elementary School and Calhoun City Middle School are two instructional facilities that received telecom service during the ERATE year in question.

Please refer to documentation that was sent to USAC in December of 2016 that listed these two facilities as eligible entities within our school district (also sent with this documentation).

Calhoun County School District does dispute USAC requesting \$10,273.85 for improperly disbursed funds due to a clerical error on the Item 21 attachment. Furthermore, the process of applying for ERATE funding during this particular funding year was a more cumbersome and convoluted process versus the automated prepopulated information that is now available on the EPC online system.

A handwritten signature in blue ink that reads 'Jean Ann Casey'.
